

Getting Started — Mentors & Teachers

1. Your account has teacher access in the learning environment — open your course and review the participant list.
2. Add or adjust course content (activities, H5P interactive content, quizzes) directly in the course editor.
3. Manage your team's membership on the **Teams** page.
4. Review student submissions and grades from the course's assessment area.
5. Use the **Partner Coordination** forum for consortium-level planning.
